

November 13, 1984

Docket No. 50-266
Docket No. 50-301

Wisconsin Electric Power Company
ATTN: Mr. C. W. Fay
Vice President
Nuclear Power Department
231 West Michigan, Room 308
Milwaukee, WI 53201

Gentlemen:

Thank you for your letter dated October 17, 1984, providing us with your audit report of your environmental contractor, Teledyne Isotopes, Inc. in response to the open item in our letter dated August 30, 1984. We have no further questions regarding this matter. This closes out Open Item Nos. 50-266/84-14-02; 50-301/84-12-02.

Regarding the unresolved item for apparent failure to audit the chemistry and radiochemistry area in accordance with Technical Specification 15.6.5.3, we understand that such audits will be performed in accordance with the revised quality assurance program discussed in Inspection Reports No. 50-266/84-17 and 50-301/84-15. This report described the corrective actions taken in response to a number of violations in this area identified in a previous inspection report. We also understand an audit in chemistry and radiochemistry will be performed in the near future as was confirmed in a telephone conversation with Mr. R. Link on November 9, 1984. We will review your activities with regard to auditing in this functional area during a subsequent inspection.

Your cooperation with us is appreciated.

Sincerely,

L. R. Greger, Chief
Emergency Preparedness and
Radiological Protection Branch
