Inspection Summary

Inspection on October 23, 1984 (Report No. 70-1739/84-01[DRSS])

Areas Inspected: Included a review of authorizations for access to national security information and restricted data, physical protection facility approval for NSI and RD, and safeguarding NSI and RD - storage and use. The inspection involved ten inspector-hours onsite by one Regional inspector and a representative from NRC's Division of Security, and eight hours in the office. The inspection began during the day shift.

Results: No violations of 10 CFR Parts 25 and 95 were identified. One security infraction, relating to improper transmission of classified documents by another company to Tri-State Motor Transit Company, was identified.
