Gentlemen:

Subject: Cooper Nuclear Station Safeguards Plan;  
Report of Change-Revision Number Eight

The Physical Security Plan (Volume I of the CNS Safeguards Plan) is being revised to incorporate numerous security upgrades and other modifications at the Cooper Nuclear Station. These changes include, but are not limited to, site building additions and modifications, fence line relocation, new station access badges, CNS organizational changes, security force re-organization, and a security computer upgrade. Clerical (i.e., capitalization, numerical listing and sequencing, format layout, page numbering, identity and date, etc.) and numerous terminology corrections and substitutions have also been made where necessary. Additionally, for Attachment "F", page 1 and 2 (Security Clearance Form), a new one page form is submitted to replace the current form shown as this Attachment.

Accordingly, Nebraska Public Power District is submitting, in accordance with the provisions of 10CFR Part 50.54(p), a Report of Change to the Cooper Nuclear Station Safeguards Plan, Revision Seven. Upon incorporation of this change, the current Safeguards Plan becomes Revision Eight. We believe, the enclosed changes, annotated by sidebars, do not decrease the safeguards effectiveness of the plan.

The material enclosed herewith contains Safeguards Information as defined by 10CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited. Therefore, we request the material, with the exception of the cover letter, to be withheld from public disclosure.

J. M. Pilant  
Technical Staff Manager  
Nuclear Power Group
