Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Ms. E. G. Adensam, Chief
Licensing Branch No. 4

Subject: McGuire Nuclear Station
Docket Nos. 50-369 and 50-370
Technical Specification Amendment
Auxiliary Feedwater Pump Testing Frequency

Dear Mr. Denton:

Attached are proposed license amendments to Facility Operating Licenses NPF-9 and NPF-17 for McGuire Nuclear Station Units 1 and 2, respectively. The proposed changes to the Technical Specifications seek to relax certain overly conservative surveillance and testing requirements for the Auxiliary Feedwater Pumps. Duke Power Company proposes to change the testing requirements for these pumps to those recommended by the ASME Boiler and Pressure Vessel Code, Section XI, Subsection IWP.

Attachment I contains the Proposed Technical Specification changes. Attachment II provides a Technical Justification and Safety Analysis in support of the proposed change including test results of the auxiliary feedwater pumps. Attachment III provides an Analysis of Significant Hazards Consideration in accordance with the standards of 10CFR 50.92 as required by 10CFR 50.91. The proposed amendment has been reviewed and has been determined to have no adverse safety or environmental impact.

This request involves one application for amendment to the McGuire Technical Specifications. Accordingly, pursuant to 10 CFR 170.21 a check for \$150.00 is enclosed.

Please feel free to contact us if you require any additional information.

Very truly yours,

Hal B. Tucker

HAL B. TUCKER, being duly sworn, states that he is Vice President of Duke Power Company; that he is authorized on the part of said Company to sign and file with the Nuclear Regulatory Commission this revision to the McGuire Nuclear Station License Nos. NPF-9 and NPF-17 and that all statements and matters set forth therein are true and correct to the best of his knowledge.

Hal B. Tucker, Vice President

Subscribed and sworn to before me this 16th day of November, 1984.
