Director of Nuclear Reactor Regulation  
Attention: Mr. D. B. Vassallo, Chief  
Operating Reactors Branch No. 2  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Site Visit Related to USI A-45 "Shutdown Decay  
Heat Removal Requirement"

Reference: 1) Letter from D. B. Vassallo to J. M. Pilant  
dated October 22, 1984.

Dear Mr. Vassallo:

This letter is written to confirm that the District agrees to the two day site visit as specified in Reference 1. In discussions with our Project Manager, the dates of December 4 and 5 have been agreed to. It is also our understanding that the District will be given the opportunity to review the draft report prepared by Sandia as relates to CNS prior to its finalization.

It is the District's intention to have knowledgeable people from our engineering and operations organizations available to provide information; however, our Project Manager has been informed that some key people may not be available. We look forward to cooperating to the greatest extent possible given the circumstances of the outage and the other activities in progress.

Sincerely,

Jay M. Pilant  
Manager, Technical Staff  
Nuclear Power Group
