ADEP PROJECT INSTRUCTION #14, #14

As Project Manager, please initiate all contacts with State and local officials which are to be made in preparing for a site visit rather than delegate this function to the Lab Team Leader. In some recent cases, the Lab Team Leader may have misrepresented the exact nature of the visit. For this reason, in the future, I want you to maintain close control of this type of contact.

Daniel R. Muller, Assistant Director
for Environmental Projects
Directorate of Licensing
