Mr. Gordon K. Dicker, Chief
Environmental Projects Branch 2
Division of Reactor Licensing
Nuclear Regulatory Commission
Washington, D. C.   20555

50-466/467

Dear Mr. Dicker:

Thank you for your letter of July 1, 1975, requesting the comments of
the Advisory Council pursuant to Section 106 of the National Historic
Preservation Act on the construction of the proposed Allens Creek Nuclear
Generating Station, which will have an adverse effect upon archeological
site number 41-AU-36, Austin County, Texas, a property included in the
National Register of Historic Places.

The Executive Director has initiated the consultation process and Michael H.
Bureman will contact you regarding completion of the steps set forth in
Section 800.5(b)-(g) of the Council's "Procedures for the Protection of
Historic and Cultural Properties" (36 C.F.R. Part 800).

In order to expedite the consultation process, the following information
should be submitted at your earliest convenience:

1.   a review of alternatives which would avoid any adverse effects

2.   a review of alternatives which would mitigate any adverse effects

3.   the status of this project in your agency's approval process

Pending receipt of the Council's comments, the Council requests that the
Nuclear Regulatory Commission refrain from taking any action with regard
to the undertaking that will foreclose proper Advisory Council consideration
of existing alternatives to avoid or satisfactorily mitigate any adverse
effect on the property in question.

Should you have any questions, please contact Mr. Bureman of the Council
staff at (303) 234-4946. The Council appreciates your cooperation in this
matter.

Sincerely yours,

John D. McDermott
Director, Office of Review
and Compliance
