Dear Mr. Giambusso:

The Advisory Council is pleased to inform you that the Memorandum of Agreement for the granting of a U. S. Nuclear Regulatory Commission permit to Houston Lighting and Power Company to construct the Allens Creek Nuclear Generating Station, Units One and Two in Austin County, Texas, has been approved by Dr. Clement M. Silvestro, Chairman of the Advisory Council. This completes the process for compliance with the "Procedures for the Protection of Historic and Cultural Properties" (36 C.F.R. Part 800). A copy of the Agreement is enclosed.

The Council appreciates your assistance in the development of the course of action that will satisfactorily mitigate any adverse effect of the undertaking on the Earnest Witte Archeological Site (41AU36).

Sincerely yours,
