NOTE TO J. J. CUMMINGS

RE: HARTMAN ALLEGATIONS

In response to my note to you and Dick DeYoung of April 18, 1983 and my previous oral discussions with Tim Martin (Region 1), I have received or have been made aware by those indicated below of the following written material related to the Hartman allegations currently in the possession of NRC. I understand that none of this material has been made publicly available or furnished to the Board or Panel involved in the TMI-1 restart proceeding.

- (1) By Region I -- As listed in the Martin memorandum to Case of March 28, 1983 (attached hereto as Enclosure 1). In addition, I have been informed by Tim that a box of records and analyses related to these allegations exists and is physically located in the Region I office.
- (2) By IE -- As listed in Sniezek note to Case of April 22, 1983 (attached hereto as Enclosure 2).
- (3) By Vic Stello -- "Results of Faegre & Benson Investigation of Allegations by Harold G. Hartman, Jr., Concerning Three Mile Island Unit 2," September 17, 1980 (four volumes) and "Deposition of Harold W. Hartman, Jr." incident to the GPU B&W lawsuit (291 pages).
- (4) By Jim Cummings -- Interview of Chuck Mell by Subcommittee on Nuclear Regulation of the Committee on Environment and Public Works, Wednesday, August 22, 1979, and letter from Chairman Palladino to Attorney General Smith dated April 11, 1983.

Although there may be more written material available on this matter, in accordance with our previous discussions with Vic Stello and others on this subject of early March, I suggest that you now determine whether the Department of Justice has written objections to making any or all of the available written material listed above publicly available, or otherwise available to the Board and Panel involved in the TMI-1 Restart Proceeding. For your information, the Commission has been informed that we are taking this action by means of the NRC Staff's Comments on the Analysis of GPU V. B&W Transcript of April 18, 1983. (Enclosure 3 -- see footnote 6 on page 4)
