

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

August 26, 1983

THRU:

William Ward, Director

MEMORANDUM FOR: William J. Dircks, Executive Director
for Operations
Office of the Executive Director for Operations

FROM: *Dir* Ben B. Hayes, Director
Office of Investigations

SUBJECT: CONSIDERATION OF THE GPUN MANAGEMENT COMPETENCE ISSUE AS IT
RELATES TO OI INVESTIGATION 1-83-010 (THREE MILE ISLAND
UNIT 2 (TMI-2)/ALLEGED FALSIFICATION OF REACTOR COOLANT
SYSTEM LEAK RATE TESTS)

Bill, attached is Keith Christopher's memorandum recommending--appropriate authority to examine the performance of leak rate tests of other randomly selected plants.

At our meeting a few days ago I mentioned to you Keith's recommendation. I think it has some merit. As you/your staff indicated at that time, such examination may already taken place at other installations. We, of course, would be interested in the results of those examinations.
