Region I
U.S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

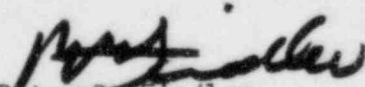

Dear Sir:

Subject: Forked River Nuclear Station (FRNS)
Docket No. 50-219
Licensing No. CPPR
Inspection No. 80-02

This transmittal is to provide you with an update to our March 30, 1984 letter which outlined the soil erosion control and stabilization projects being undertaken at the Forked River Site. The aforementioned submittal indicated that revegetation of the banks of Oyster Creek between the southern access road to FRNS and the Oyster Creek Nuclear Generating Station Discharge Canal was to be conducted in 1984-85. This project was divided into two portions, revegetation of that portion east of Oyster Creek was completed on September 27, 1984 under Soil Conservation District Permit No. 1280. The area west of Oyster Creek will be completed in 1985 under Soil Conservation District Permit No. 1281.

If you have any questions please do not hesitate to contact Mr. Douglas Moore of our Environmental Licensing Section at (609)971-4630.

Very truly yours,

Peter B. Fiedler
Vice President and Director
