To The N.R.C,

I am writing to express my concern over the inadequate evacuation plans in the event of a nuclear accident at the Limerick plant.

I and my neighbors do not know what the plan is for our locality. We live 19 miles from the plant.

Also, I am not aware of plans having been made for all the camps for young people that are within 10 miles of the plant. For them there needs to be different plans for the different seasons + also for the different situations (groups of handicapped children, times when the children are out hiking in the woods.).

I urge you to deny an operating license for PECO's Limerick plant.

Sincerely, Pamela J. Desch
