Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. EO-482/91-34

Thank you for your letter of June 30, 1992, which addresses a revised schedule for completing commitments to train various levels of your technical staff. Your proposed program enhancements and increased number of personnel receiving training appear responsive to the original concerns identified during the Generic Letter (GL) 89-10 inspection.

Although the completion date for these corrective actions will be October 30, 1992, a Region IV inspection will be conducted during the week of August 24, 1992, to review GL 89-10 issues. During this inspection, we will review the implementation of your GL 89-10 commitments.

Sincerely,

A. Bili Beach, Director
Division of Reactor Projects

2) Letter WM 92-0040 dated March 20, 1992 from
B. D. Withers, WCNOG, to J. Lieberman, NRC
Subject: Docket No. 50-482: Revised Schedule for Completion
of Commitment

Gentlemen:

The purpose of this letter is to provide a revised schedule for the completion of actions committed to in the References. A commitment to train various levels of the Technical Staff to achieve an increased understanding of the corrective action program was first presented in Reference 1 and was again discussed in Reference 2. The date of completion was scheduled for July 1, 1992. However, as a result of enhancements to Wolf Creek Nuclear Operating Corporation's corrective action program and the development of two new corporate level procedures, the final lesson plan is now being completed. Also, it was determined that the training should be provided to a larger number of personnel. As a result of the program enhancements and the change in the number of personnel to receive training, it has become necessary to extend the completion date for this activity to October 30, 1992.

Although the corrective action committed to in the above references is still in the process of being completed, other actions are being accomplished including the initial completion of classes on root cause evaluation techniques to personnel responsible for performing root cause determinations within their respective groups.

If you have any questions concerning this matter, please contact me or Mr. S. G. Wideman of my staff.

Very truly yours,

B. Withers
