ILLINOIS POWER COMPANY

CLINTON POWER STATION, P.O. BOX 678, CLINTON, ILLINOIS 61727

March 13, 1985

Docket No. 50-461

Director of Nuclear Regulation
Attention: Mr. A Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: Clinton Power Station Unit 1
Seismic Qualification
Outstanding Issue #7

Dear Mr. Schwencer:

In Clinton SSER#2 dated May 1983, the NRC requested that Illinois Power Company (IP) provide the NRC Staff a bi-monthly report of equipment seismic qualification and installation status to assist in their scheduling of a Seismic Qualification Review Team (SQRT) audit.

In recent communications with your staff and reviewers on this issue, they stated that it is no longer necessary to provide these updates on a bi-monthly basis and that a report six (6) weeks prior to the projected audit date of July 1985 would be sufficient. Illinois Power Company agreed to provide that report.

Please contact us should you have any questions on this matter.

Sincerely yours,

A handwritten signature in cursive script, appearing to read 'F. A. Spangenberg'.
