Docket Nos. 50-313 & 50-368
License Nos. DPR-51 & NPF-6
Operational and Surveillance Requirements
for Main Steam Line Radiation Monitors
(TAC Nos. M75252 and M75253)

Gentlemen:

By letter dated May 22, 1992 (OCAN059203), Entergy Operations committed to perform a reevaluation of the request to add main steam line radiation monitors to the Arkansas Nuclear One (ANO) Units 1 and 2 Technical Specifications (TS) and submit appropriate changes by August 31, 1992. This commitment date was based on the ANO Safety Review Committee (SRC) reviewing the proposed changes at the SRC meeting scheduled for mid-August. The SRC meeting has been rescheduled to mid-September; therefore, the changes to the ANO TS will be submitted by September 30, 1992. This change was discussed with Tom Alexion of your staff on August 11, 1992.

Very truly yours,

James Y. Fisicaro
Director, Licensing
