Gentlemen:

This refers to the investigation conducted by Mr. D. M. Galanti of the NRC Office of Investigation in regard to the Waterford 3 site. The investigation was conducted to determine the facts surrounding alleged improprieties in regard to torqueing of bolts associated to emergency diesel generators by Gulf Engineering Company, Inc.

The issues concerning alleged falsification and intimidation are covered in the attached report. Two technical issues involved in the allegation are addressed in Supplement 7 of the Waterford Safety Evaluation Report under Allegation A-36.

This investigation did not reveal any violations of NRC requirements and determined that there were no improprieties apparent in this matter. This investigation is considered closed and no response is required to this letter.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By
E. H. Johnson
