Docket Nos.: 50-443
and 50-444

Mr. Robert J. Harrison
President & Chief Executive Officer
Public Service Company of New Hampshire
Post Office Box 330
Manchester, New Hampshire 03105

Dear Mr. Harrison:

SUBJECT: SEABROOK QA PROGRAM CHANGES

Public Service Company of New Hampshire (PSNH) submitted Amendment 50 to the FSAR modifying certain portions of the Chapter 17, Operational QA Program. In addition to the amendment, PSNH's letter of August 31, 1984 provides the staff information regarding the establishment of a new division within PSNH called New Hampshire Yankee (NHY) with prime responsibility for the construction, operation, maintenance and refueling of Seabrook Station, Units 1 and 2. Accordingly, the staff has reviewed this material as it affects the Safety Evaluation Report (SER).

The staff has completed the review of the new organization as it pertains to the SER including additional information provided at our request in PSNH's letter of October 31, 1984. Since the reorganization was within PSNH, the staff review focused on the continued acceptability of the "Quality Assurance Program" and its implementation. The staff has completed its review and as stated in the Enclosure 1, finds Amendment 53 including the newly established NHY organization acceptable. The revised SER material in Enclosure 2 will be included in a future Supplement to the Seabrook Nuclear Station SER (NUREG-0896).

Questions or additional information regarding this matter should be directed to the Seabrook Project Manager, Mr. V. Nerses.

Sincerely,

Original signed by
Darrell G. Eisenhut
