Gentlemen:

This refers to the inspection conducted under the Resident Inspection Program by Messers. D. P. Tomlinson, D. R. Carpenter, and L. E. Ellershaw of this office during the period August 1 - September 30, 1984, of activities authorized by NRC Construction Permits CPPR-128 and 129 for the South Texas Project, Units 1 and 2, and to the discussion of our findings with members of your staff at the conclusion of the inspection.

Areas examined during the inspection included a review of previously identified inspection findings, site tours, IE Bulletin followup, and allegation followup. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspectors. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

One unresolved item is identified in paragraph 4 of the enclosed inspection report.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 3 of the enclosed inspection report.
