Significant Change In  
Facility Administration

Attn: Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Re: Facility License R-56  
Docket Number 50-83

Dear Sir:

As required by our Technical Specifications, Section 6.6.3, Paragraph(1) we are reporting a significant change in our facility organization at Level 3 which is the level responsible for the day-to-day operation of the University of Florida Training Reactor.

Mr. Rick Piciullo, who was the Acting Reactor Manager, resigned his position effective on August 7, 1992. Effect August 10, 1992 Mr. Douglas Simpkins who has been employed nearly 2 years and who has been licensed as a Senior Reactor Operator for over 8 months at our facility, has been appointed to replace Mr. Piciullo as the Acting Reactor Manager. Mr. Simpkins also has six years of Nuclear Navy experience and has senior status working toward a degree in biochemistry at the University of Florida. Since Mr. Simpkins is a part time employee, this appointment is considered temporary as efforts are still underway to obtain a full time replacement for the Reactor Manager.

Sincerely,

William G. Vernetson  
Director of Nuclear Facilities
