

August 11, 1992

Georgia Power Company
ATTN: Mr. W. G. Hairston, III
Senior Vice President
Nuclear Operations
P. O. Box 1295
Birmingham, AL 35201

Gentlemen:

SUBJECT: VOGTLE ELECTRIC GENERATING PLANT EXAMINATION REPORT 50-424/92-300

This refers to the Nuclear Regulatory Commission (NRC) initial examinations led by George T. Lopper on June 2 and June 22, 1992. These examinations were administered to employees of your company who had applied for licenses to operate your Vogtle Electric Generating Plant. At the conclusion of the examination, the examination questions and preliminary findings were discussed with those members of your staff identified in the Examination Report, Enclosure 1.

A Simulator Fidelity Report is included in this report as Enclosure 2. A copy of the written examination questions and answer key, as noted in Enclosure 3, was provided to members of your training staff at the conclusion of the examination.

The Generic Fundamental Examination Section (GFES) results for the last two examinations were as follows. In February 1992, nine candidates were examined and nine passed for a 100 percent pass rate. In June 1992, no candidates participated in the examination.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us

Sincerely,

(Original signed by T. A. Peebles)

Thomas A. Peebles, Chief
Operations Branch
Division of Reactor Safety
