Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-327/92-20 AND
50-328/92-20

This refers to the inspection conducted by F. N. Wright of this office on June 22-26, 1992. The inspection included a review of activities authorized at your Sequoyah facility as well as followup inspection activity completed in the NRC Region II office on July 20, 1992. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed Inspection Report identifies activities that appeared to violate NRC requirements that are not cited; therefore, a response is not required. The violation is not being cited because the criteria specified in Section V.A of the Enforcement Policy were satisfied.

In accordance with 10 CFR 2.790(a), a copy of this letter and its enclosure will be placed in the NRC Public Document Room.
