Gentlemen:

The purpose of this letter is to forward a copy of the Federal Emergency Management Agency's (FEMA) exercise evaluation report of the Comanche Peak Steam Electric Station for the November 19, 1991, emergency preparedness exercise at the Comanche Peak Steam Electric Station Site.

Our purpose in forwarding this report to you is so that you will be aware of the results of the FEMA evaluation of the emergency exercise. No response to the NRC is required.

The report states that FEMA observed one deficiency and eight areas requiring corrective action during the exercise. We understand that the deficiency was corrected during a remedial drill conducted on February 6, 1992, in which your staff participated. We also understand that FEMA Region VI staff will work with the State of Texas to assure the correction of the eight areas requiring corrective action before or during the next biennial exercise.

If you have any further questions, please contact Mr. Nemen M. Terc at (817) 860-8129.

Sincerely,

A. Bill Beach, Director
Division of Reactor Projects
