Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-445/92-26; 50-446/92-26

This refers to the inspection conducted by Messrs. L. D. Gilbert, L. E. Ellershaw, and W. M. McNeill of this office on July 6-9, and 20-23, 1992. The inspection included a review of activities authorized for your Comanche Peak Steam Electric Station facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. These included the comparison of the as-built plant to the description in the Final Safety Analysis Report.

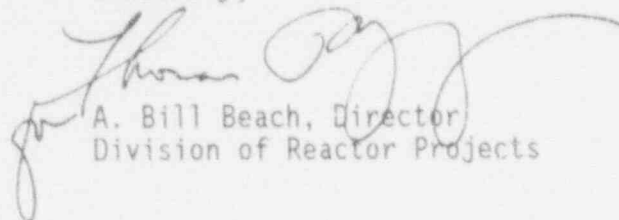

During this inspection, it was found that certain of your activities were in violation of NRC requirements. However, in accordance with Section VII.B.1 of the NRC's Enforcement Policy, no citation is being issued for the violation described in paragraph 3.2 of the enclosed inspection report.

We have also examined actions you have taken with regard to a previously identified inspection finding. The status of this item is identified in paragraph 2 of the enclosed report.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

A. Bill Beach, Director  
Division of Reactor Projects

Enclosure: (see next page)
