Dear Mr. Witten:

This letter is written to advise you of changes we wish to make in our NRC license application submitted on behalf of Larry K. Killebrew, M.D., Radiologist. Please modify our application to reflect that Bethany General Hospital is requesting to be the designated holder for this license. Additionally, we are pleased to inform you that we have appointed Dr. Larry Killebrew as the Safety Officer responsible for coordinating all activity involved with radiation for human organ imaging.

Dr. Killebrew's responsibilities as Safety Officer will be outlined and incorporated in our Medical Staff committee processes.

Please do not hesitate to contact me should you need additional information.

Thank you.

Sincerely,
