

AUG. 17 1992

Docket No. 50-333

Mr. Harry P. Salmon, Jr.  
Resident Manager  
New York Power Authority  
James A. FitzPatrick Nuclear Power Plant  
Post Office Box 41  
Lycoming, New York 13093

Dear Mr. Salmon:

Subject: Federal Emergency Management Agency (FEMA) Exercise Report for the  
J. A. Fitzpatrick Nuclear Power Station

Enclosed is a letter from D. H. Kwiatkowski, Assistant Associate Director, Office of Natural and Technological Hazards, FEMA, dated July 23, 1992, transmitting the FEMA Region II report for the August 7, 1991 full-participation exercise.

There was one deficiency involving the Joint News Center's failure to notify the public via the Emergency Broadcast System of a protective action recommendation. This deficiency was corrected in a remedial exercise held on November 13, 1991. Based on the results of the August 7, 1991 exercise and the remedial exercise, FEMA has concluded that offsite emergency preparedness is adequate to protect the health and safety of the public.

The report also identifies 8 Areas Requiring Corrective Action (ARCA). Therefore, we request that your staff follow up with offsite officials to address identified ARCAs.

If you have any questions concerning this enclosure, please contact us.

Sincerely,

James H. Joyner, Chief  
Facilities Radiological Safety and  
Safeguards Branch  
Division of Radiation Safety and  
Safeguards

Enclosure: As Stated
