

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20566

August 20, 1992

Docket Nos. 50-413
and 50-414

Mr. M. S. Tuckman
Vice President, Catawba Site
Duke Power Company
4800 Concord Road
York, South Carolina 29745

Dear Mr. Tuckman:

SUBJECT: REVISIONS TO CATAWBA UNIT 1 RELOAD SUBMITTAL
(TAC NOS. MB3173 AND MB3174)

As a result of our review of your application dated April 13, 1992, for changes to the Catawba Technical Specifications (TS) to support Unit 1 Cycle 7 operation, we have identified the need for revisions of an administrative and editorial nature to certain of the TS pages submitted with your application. Some of these items were identified promptly by your staff shortly after submittal of the application. Other items, in particular, the first item below, were identified by the NRC staff. These items are as follows:

- (1) Proposed TS pages 3/4 A 3-4, -6, -9, -11, -12, 3/4 B 3-4, -6, -9, -11, and -12 are not based on the most recent TS amendment issued for these pages. Amendments 63 and 57 for Units 1 and 2 issued on May 9, 1989, provided the most recent amendment for these pages as well as page 3/4 A 3-12a.
- (2) The $F\Delta H (X,Y) SURV$ should be referenced as being identified in the COLR similar to the fashion for $F\Delta H (X,Y) LCO$ on page 3/4 A 2-8.
- (3) A connecting term appears to be missing from the attachment to page 3/4 A 2-9.
- (4) The deletion marker on pages 3/4 A 3-35 and 3/4 B 3-35 inappropriately includes the Trip setpoint column.
- (5) The phrase "three limiting" appears in four locations, but was proposed for deletion in only two locations on pages 3/4 5-1 and 3/4 5-2. Please clarify.

Please provide a response addressing these items including any revisions to the proposed TS pages. These items have been discussed with your staff and we understand that any necessary revisions to your application will be submitted expeditiously in order to permit the timely completion of our review.

Sincerely,

Robert E. Martin, Senior Project Manager
Project Directorate II-3
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
