AUG 20 1992

Docket No 50-443

Mr. Ted C. Feigenbaum
Senior Vice President and Chief Executive Officer
North Atlantic Energy Service Corporation
Post Office Box 300
Seabrook, New Hampshire 03874

Dear Mr. Feigenbaum:

SUBJECT: SEABROOK INSPECTION 92-13

This refers to the safety inspection of the resident staff at Seabrook Station for the period June 16 - July 27, 1992. The inspection results are described in the enclosed report and were discussed with Mr. B. L. ... of your staff.

Overall, this inspection found that activities were conducted safely. However, we are concerned with the poor work control practices and miscommunications of two different operating crews that resulted in violations of Technical Specification requirements associated with removal of a diesel generator from service. These personnel errors resulted in a late surveillance test for the other diesel generator and a relatively brief inoperability of a containment ventilation system. The apparent violations are cited in the enclosed Notice of Violation.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96.511.

Thank you for your cooperation.

Sincerely,

ORIGINAL SIGNED BY:

James C. Linville
James C. Linville, Chief
Projects Branch No. 3
Division of Reactor Projects
