November 16, 1984

Mr. Peter T. McGarry, Chief  
Florida/Mississippi Unit  
Water Management Division  
Environmental Protection Agency  
345 Courtland Street  
Atlanta, GA 30365

Subject: Crystal River Unit 3  
NPDES Permit No. FLO000159  
Administrative Order No. 83-17 (wCAB)

Dear Mr. McGarry:

In accordance with noncompliance notification requirements of the Crystal River NPDES permit, Florida Power Corporation submits the following information.

For the month of October 1984, the average for total suspended solids from discharge 003 (LSST) exceeded the 30 mg/l limit. The measured value was 33 mg/l. Since this limit had never been exceeded, we were not tracking the monthly average and were unable to take corrective action. To prevent future incidents, the plant will maintain a running monthly average and reprocess any discharge which might jeopardize our ability to meet the monthly average.

Should you have any questions concerning this matter, please advise.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Walter S. Wilgus for".
