GENTLEMEN:

In Georgia Power Company's letter of May 14, 1984, it was stated that additional information in response to Violation Item 321/84-05-01 and 366/84-05-01, Inadequate Inspection of Masonry Wall Modifications, would be submitted by July 29, 1984.

We now propose to make this submittal by August 31, 1984. The additional time is necessary to ensure that the information submitted is of sufficient scope to adequately address the NRC's concerns.

Please contact this office if there are any questions.

Very truly yours,

L. T. Gucwa
