1 been in contact with one another. I'm not sure
2 about that. And that may be in that context
3 (inaudible). But I'm sure if your attorney is
4 telling you not to discuss those issues, he's
5 probably telling our attorney that you've been told
6 not to discuss those issues.

7 MOSBAUGH: I think that's true.

8 LEE GLENN: Which means the reason we
9 wouldn't do it the way we want to do it.

10 MOSBAUGH: Yeah.

11 LEE GLENN: Our attorney's over here and
12 then there and wherever else (inaudible).

13 MOSBAUGH: I -- I had one other question
14 about, you know, about your -- your coming down here
15 in general. Can you -- can you tell me the
16 background, you know, on that? How did this -- how
17 did this all get initiated?

18 LEE GLENN: I can tell you the part I'm
19 aware of --

20 MOSBAUGH: Okay.

21 LEE GLENN: -- or (inaudible) the realm,
22 the legal realm of hearsay, what I've been told took
23 place. Certainly we -- the DOL complaint came in
24 and identified that -- that you felt like you'd been
25 (inaudible) identified basic concerns (inaudible)

1 conversation you had with George and John Rogge
2 Tuesday in which you indicated there were some --
3 there may be continuing and additional concerns
4 which you hadn't identified (inaudible). Is that
5 coming out? George -- it was my understanding --
6 talked to Ken McCoy about it. How do we want to
7 address it? I cannot tell you whether they talked
8 to Atlanta management before or after or somewhere
9 in the process. Bill Welders also talked
10 (inaudible) Chuck Whitney discussed with it, and I
11 know Troutman Sanders has discussed it probably with
12 an attorney at Troutman Sanders what the situation
13 was and seeing (inaudible) George related. That
14 group ultimately made the decision it would be
15 appropriate to give an independent third party to
16 someone outside of -- of -- certainly outside of the
17 plant chain of command, who Bill Lyon would be, and
18 even outside of SONOPCO. I'm not sure if that
19 desire would be outside of (inaudible) or whatever
20 else may have (inaudible) have some concept of
21 what's going on. I received a call from (inaudible)
22 basically the (inaudible) situation. The DOL
23 complaint, the technical concerns, the possibility
24 there were additional technical concerns
25 (inaudible).
