SUPPLEMENTAL RESPONSE TO IE REPORT 324-325/83-26

Dear Mr. O'Reilly:

In our supplemental letter of January 13, 1984 (Serial No. BSEP/84-0053), Carolina Power & Light Company committed to revise Fire Protection System drawings and procedures, as required, by June 30, 1984. However, these items are not yet complete due to the unexpected scope of the project, along with the current volume of outage-related work. These items will be completed during the implementation of the new Fire Protection program. Full implementation will be completed by March 15, 1985.

Very truly yours,

C. R. Dietz, General Manager
Brunswick Steam Electric Plant
