NUCLEAR LICENSING & SAFETY DEPARTMENT

U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D. C. 20555

Attention: Mr. Harold R. Denton, Director

Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station
Unit 1
Docket No. 50-416
License No. NPF-29
File: 0260/L-860.0
Additional Information - TDI
Diesel Generator Design Review
and Quality Revalidation
Report
AECM-84/0525

Mississippi Power and Light Company (MP&L) has received from the TDI Diesel Generator Owners Group the initial revision of the TDI Diesel Generator Design Review and Quality Revalidation (DR/QR) Report for the Grand Gulf Nuclear Station (GGNS). Based on discussions with our NRC Project Manager, Mr. Les Kintner, this transmittal provides seven (7) copies of the DR/QR Report for your information and review.

The attached report provides additional basis for the conclusion that the GGNS TDI diesel generators presently installed are fully capable of performing their intended safety function. MP&L has not completed its formal review of the report and, therefore, does not endorse the completeness of the report, its applicability to GGNS, or the recommendations contained therein. After completion of this review, MP&L will submit a detailed discussion of the recommendations to the NRC describing the proposed MP&L implementation plan as required by the GGNS, Unit 1 Facility Operating License (NPF-29).

Should you have any questions regarding the DR/QR report, please contact this office.

Yours truly,

[Handwritten signature]
