Mr. James P. O'Reilly
United States Nuclear Regulatory Commission
Region II
101 Marietta Street, Northwest (Suite 2900)
Atlanta, GA 30323

NRC-254

Dear Mr. O'Reilly:

In our March 16, 1984 response to RII:GFM/RLP 50-400/83-37-01, we informed you of the actions taken and planned to resolve the referenced violation concerning "Failure to Control Electrical Cable Installation." At the time of our response, it was projected that corrective actions would be completed by September 1, 1984. This letter is to inform you that we will require additional time to complete the corrective actions as stated in our response.

Harris Plant Engineering Section has completed their review and design criteria needed to implement corrective action has been issued. Implementation of the design criteria is now underway. It is currently projected that full compliance will be achieved by January 15, 1985.

Thank you for your consideration in this matter.

Yours very truly,

R. M. Parsons
Project General Manager
Shearon Harris Nuclear Power Plant
