

March 14, 1985

Docket No.: 50-160

Dr. Ratib A. Karam, Director
Neely Nuclear Research Center
Georgia Institute of Technology
Atlanta, Georgia 30332

Dear Dr. Karam:

The Nuclear Regulatory Commission (NRC) has issued the enclosed Amendment No. 6 to License No. R-97 for the Georgia Institute of Technology Research Reactor. This amendment consists of changes to both the license and the technical specifications in response to your application of December 18, 1984.

The amendment changes License No. R-97 to authorize you to possess, but not to use, the fuel from your AGN-201 reactor, License No. R-111, Docket No. 50-276, which is being decommissioned, and changes your technical specifications to 1) show a modified organizational structure for the management of the Nuclear Research Center, and 2) update several terms used in your text to reflect the current NRC practice and organization.

A copy of the Safety Evaluation is also enclosed.

Sincerely,

Original signed by
