COMMISSION  
MAIL SECTION

Mr. Paul R. Guinn  
U.S. Nuclear Regulatory Commission  
License Management Branch  
Division of Fuel Cycle and Material Safety  
Washington, D.C. 20555

Dear Mr. Guinn:

It is requested that U.S. Nuclear Regulatory Commission Materials License No. 37-01359-02, Amendment No. 15, March 1, 1979, Expiration date: March 31, 1984 be modified in Condition No. 12 by adding the names of Stephen E. Cramer and Michael J. Safreed to the current list of authorized users of byproduct material. The enclosed copies of their letters dated November 29, 1979 and attached certificates indicate successful completions of the Basic Radiological Defense Officer Course and Radiological Defense Instructors Workshop in Calendar Year 1979.

The purpose of this amendment is to permit the authorized use of the licensed resources of the Pennsylvania Emergency Management Agency by the United States Postal Service in the conduct of its radiological training program.

Attention is invited to our last amendment request dated October 4, 1979 which has been assigned NRC Control No. 01447 in the case of Walter Leach, Jr.

Sincerely,

*Clarence R. Deller Jr.*

Clarence R. Deller, Jr.  
Radiological Officer

DATE: November 29, 1979

SUBJECT:

Radiological Monitor Training

TO:

• Mr. Clarence R. Deller Jr.  
Radiological Survival Office  
Pennsylvania Emergency  
Management Agency  
P. O. Box 3321  
Harrisburg, Pa. 17105

I hereby request certification under the Nuclear Regulatory Commission Users License processed by the Commonwealth of Pennsylvania to use and handle radioactive source materials within the Commonwealth of Pennsylvania for the purpose of instructing Radiological Defense Monitors.

I have completed the Basic Radiological Defense Officer Course conducted by the Defense Civil Preparedness Agency and a copy of the certificate issued to me by the DCPA is enclosed. I have also completed the instructors course given by the same personnel in a seminar at Philadelphia, PA in August.

I am aware that the use of this radioactive source material must and will be under strict PEMA control and I have been in close contact with Mr. Paul White and Mr. Charles Bowser from Indiana, PA on this matter. I hope I can make available any information needed to assist you and your department when needed.

I may be contacted by telephone at (FTS) 727-8206 or Area Code 412-931-8750 extension 206 or by mail at the address listed above.

Thank you.

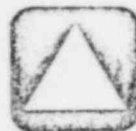

*Michael J. Safreed*

Michael J. Safreed  
District Radiological Coordinator  
District RADEF Officer
