

MAR 15 1985

Docket No. 50-298

Nebraska Public Power District  
ATTN: Mr. J. M. Pilant  
Technical Staff Manager  
Nuclear Power Group  
Post Office Box 499  
Columbus, Nebraska 68601

Gentlemen:

By letter dated January 3, 1985, the District was informed by the Division of Licensing (DL) of their approval of your application dated February 29, 1984, and issued Amendment No. 90 to Facility Operating License No. DPR-46 for the Cooper Nuclear Station. This application proposed certain Technical Specification changes relating to NUREG-0737 items. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class IV fee (\$12,300) is appropriate since the review involved consideration of several safety issues. Therefore, the District is requested to remit the additional sum of \$11,100 to this office to complete the fees for your February 29, 1984 application.

Sincerely,

Original Signed by:  
Reba M. Diggs
