SUBJECT: REVIEW OF REVISION 8I TO THE QUAD CITIES NUCLEAR STATION'S ANNEX
TO THE GENERATING STATIONS EMERGENCY PLAN

Dear Mr. Kraft:

In December 1995, Region III received Revision 8I of the Quad Cities Station's Annex to the Generating Stations Emergency Plan. We have reviewed this revision and determined that it is acceptable and does not decrease the effectiveness of your emergency planning.

Revision 8I incorporated revised emergency classification criteria, which were approved by NRC in July 1995, for events involving abnormal radiological effluent releases.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 829-9812.

Sincerely,

/s/ James E. Foster (for)

James R. Creed, Chief
Plant Support Branch 1
