**NOV 29 1984**

MEMORANDUM FOR: Edward L. Jordan  
Director, Division of Emergency  
Preparedness and Engineering Response  
Office of Inspection and Enforcement  
U.S. Nuclear Regulatory Commission

FROM: *Richard W. Krimm*  
Richard W. Krimm  
Assistant Associate Director  
Office of Natural and Technological  
Hazards Division

SUBJECT: Schedule of Corrective Actions for the April 11, 1984,  
Offsite Radiological Emergency Preparedness Exercise at  
the Grand Gulf Nuclear Station

Attached are two copies of the schedule of corrective actions for the deficiencies noted during the April 11, 1984, offsite radiological emergency preparedness exercise at the Grand Gulf Nuclear Station. The exercise report covering the performance of the State of Louisiana and Tensas Parish was submitted to you on September 14, 1984. The corrective actions proposed by the State of Louisiana are appropriate and adequate to address the deficiencies. The State and local plans are adequate to protect the public health and safety and there is reasonable assurance that appropriate protective measures can be taken offsite in the event of a radiological emergency; therefore, the 44 CFR 350 approval will remain in effect.

In conjunction with the corrective actions, the State of Louisiana has indicated that a comprehensive training program will be provided to all emergency workers by December 31, 1984.

If you have any questions, please contact Robert S. Wilkerson, Chief, Technological Hazards Division, at 287-0202.

MEMORANDUM FOR: Edward L. Jordan  
Director, Division of Emergency  
Preparedness and Engineering  
Response  
Office of Inspection and Enforcement  
U.S. Nuclear Regulatory Commission  
Gano A. Bullock  
FROM: Richard W. Krimm  
Assistant Associate Director  
Office of Natural and Technological  
Hazards Programs

SUBJECT: Exercise Report of the April 11, 1984, Exercise of the  
Offsite Radiological Emergency Preparedness Plans for  
the Grand Gulf Nuclear Station

Attached are two copies of the Exercise Report of the April 11, 1984, joint exercise of the offsite radiological emergency preparedness plans for the Grand Gulf Nuclear Station. The State of Louisiana was granted an exemption from participation due to their full-scale testing of State capabilities in the Waterford III exercise conducted on February 8, 1984. The State of Louisiana voluntarily participated on a limited scale at Grand Gulf to support Tensas Parish. This was a full-participation exercise for Tensas Parish. The report dated August 16, 1984, was prepared by Region VI staff of the Federal Emergency Management Agency (FEMA).

There were two Category B deficiencies observed at the exercise. These deficiencies did not detract from the overall capability demonstrated by the State of Louisiana and Tensas Parish to protect the health and safety of the public in the vicinity of the Grand Gulf Nuclear Station. Therefore, the 44 CFR 350 approval granted on June 29, 1983, will remain in effect. FEMA Region VI staff will furnish a copy of this report to the State of Louisiana and will request a schedule of corrective actions. As soon as we receive and analyze the State's response, we will provide you with the results.

If you have any questions, please contact Mr. Robert S. Wilkerson at 287-0200.

**TABLE 2 Deficiency Tracking and Schedule for Corrective Action**

Deficiencies and FEMA/RAC Recommendations for Corrective Actions	State (S) and Local (L) Proposed Corrective Actions	Proposed Completion Date	FEMA Evaluation of State and Local Corrective Actions and Determination of Adequacy or Inadequacy	Actual Completion Date
CATEGORY "A" DEFICIENCIES - NONE				
CATEGORY "B" DEFICIENCIES:				
<b>Tensas Parish EOC</b>				
1. <b>Description:</b> Message no. 12 received from the Utility over the commercial telephone was not verified as required by the plan. (NUREG-0654, II., E.1.)	This item was discussed on April 11 & 12, 1984, with instruction provided in proper procedures. It will be discussed also at the annual refresher training classes.	April 12, 1984		
<b>Recommendation:</b> All messages should be authenticated as provided by the plan. Additional training may be needed to ensure this requirement is met.				
<b>Tallulah Reception Center</b>				
2. <b>Description:</b> The Madison Parish Civil Defense Director, who coordinated response activities at the Tallulah Reception Center, did not have field communications available to coordinate reception center activities with the Tensas Parish. (NUREG-0654, II., F.1.d.)	The Madison Parish CDD will be provided with walkie-talkie radio communications to correct this problem.	December 1984		
<b>Recommendation:</b> Provide the Madison Parish Civil Defense Director with a walkie-talkie for communications so effective coordination can take place.
