Mr. Earl G. Wright  
U. S. Nuclear Regulatory Commission  
Materials Certification and Procedure Branch  
Division of Fuel Cycle and Material Safety  
Washington, D. C. 20555

Dear Mr. Wright:

We last talked some months ago about our Model 19312 generally licensed detector. We discussed a booklet that we planned to send to all our customers prior to shipment of a detector.

While you did review the contents of this booklet via a typed draft, we did not have a final version to give you at that time. The final version is now available, and I enclosed two copies for your files.

Very truly yours,

Jim Peters
