

Docket No. 50-333

MAR 06 1985

Mr. Harold A. Glovier
James A. FitzPatrick Nuclear Power Plant
Post Office Box 41
Lycoming, New York 13093

Reference: JAFP-85-0111

Dear Mr. Glovier:

Thank you for calling to the attention of our Regional Administrator, Dr. Thomas Murley, your proposed locations for ENS and HPN phones in your new EOF for the JAFP Plant. Your locations are well chosen and acceptable provided each phone is plainly marked with large letters HPN or ENS.

The use of commercial phones is also acceptable provided we are given the phone numbers. The use of commercial phones for the ENS is an interim arrangement. These substitutes will be replaced by a "drop" on the ENS circuit as soon as possible. The HPN commercial arrangement is of indefinite duration and is to remain in force until a new system replaces the current HPN network.

Messrs. Avrakotos and Bussanick of the Power Authority have discussed this matter with Stuart Cohen of our Headquarters Telecommunications Branch and Region I's Emergency Response Coordinator, Charles Amato. I have discussed this matter with Charles Amato and I trust this reply will satisfy your needs in this area. If you have additional questions, call me at 215-337-5280 or Mr. Amato at 215-337-5125.

Sincerely,

Ronald R. Bellamy /for
Thomas T. Martin, Director
Division of Radiation Safety
and Safeguards

Enclosure: NRC Order No. 85-M402
