Inspection Summary

Inspection on November 14-16, 1984 (Report No. 72-1/84-03(DRSS))

Areas Inspected: Material control and accountability including facility organization and operation, measurement and statistical control, storage and internal controls, shipping and receiving, records and reports, inventory/inventory verification and management of the materials control system. The inspection involved 16 inspector-hours onsite by one NRC inspector and was begun during the regular hours.

Results: The licensee was found to be in compliance with NRC requirements in the seven areas examined during the inspection.
