Gentlemen:

This refers to the inspection conducted by Mr. L. A. Yandell of this office during the period February 1-28, 1985, of activities authorized by NRC Operating License DPR-40 for the Fort Calhoun Station, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included licensee action on previous inspection findings, operational safety verification, surveillance testing, maintenance activities, station batteries, and followup of Licensee Event Reports (LERs). Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

"Original Signed by:
D. M. HUNNICUTT"

D. R. Hunter, Chief
