Gentlemen:

Subject: Systematic Assessment of Licensee Performance (SALP)

The NRC Region I SALP Board has reviewed and evaluated the performance of activities at the Three Mile Island Nuclear Station - Unit 1 for the period February 1984 through January 1985. The results are contained in the enclosed report dated March 13, 1985. A meeting to discuss this assessment has been scheduled on April 11, 1985. This meeting will be held in the Region I Office, King of Prussia, Pennsylvania.

This SALP addresses the time period which included completion of modifications and those activities associated with preoperational testing. As such, several functional areas were added to this SALP in order to perform a more encompassing assessment.

At the SALP meeting, we request that you be prepared to discuss our assessment and to address those areas warranting improvement. The meeting is intended to be a dialogue wherein any comments you may have regarding our report may be discussed. A written response addressing such items is requested within 30 days of the meeting.

Your cooperation with us is appreciated.

Sincerely,
