APR 2 1985

Mr. David H. Smith
Nuclear Licensing Administrator
Commonwealth Edison Company
P.O. Box 767
Chicago, IL 60690

Dear Mr. Smith:

This is in response to your letter of February 26, 1985 to Mr. Harold R. Denton, Director, NRR, in which you supplied additional information in support of a request for a waiver of the observation training required by your program.

We have completed our review of the information submitted in your letter and have determined that Messrs. Cretens and McGee are granted a waiver of the observation training portion of your program. Waivers are granted for these two persons based on the fact that they have had extensive operating experience at a commercial reactor facility and will have completed the other portions of the training program for the Braidwood facility prior to the administration of the examination.

If you have additional questions concerning this matter, please contact Mr. J. I. McMillen of my staff.

Sincerely,

"original signed by W. S. Little"

W. S. Little, Chief
Operations Branch
