Mr. Caulton Kammerer  
Director- Office of Congressional Affairs  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555  
ATTN: Steve Kent

Dear Sir:

I am enclosing these three letters from constituents of mine who are from Levittown, New York. All three letters deal with the Shoreham nuclear power plant. I would appreciate if you could answer their concerns and then to relay that information back to me. Thank you for your cooperation.

With best wishes I remain,

Sincerely,

NORMAN F. LENT  
Member of Congress

Leithtown, N.Y. 11756  
March 10, 1983

Congressman Norman Lent  
House of Representatives  
Washington, D.C. 20515

Dear Congressman Lent:

I feel that the Shoreham Nuclear Plant is not safe because if anything ever happened like a leak or an explosion all the people on the end of Long Island would have no way off. So I think they should take it off of Long Island or put it at the end so everyone could get off safely. Another thing that we could do is have an evacuation plan so that everyone could get off safely.

Yours truly  
Anthony Carfagna

MAR 4 1983

6 Birch Lane  
Sewittown, NY 11756  
March 2, 1983

Congressman Norman Lent  
House of Representatives  
Washington, D.C. 20515

Dear Congressman Lent:

I feel that Shoreham Nuclear Plant  
should stay closed, because if the plant had  
only half the people could evacuate. Even if it  
costs 3.2 Billion dollars, if it gets shut  
out of business, I think it's worth the money.

Sincerely,  
Tommy Cook  
4486 Kent

MAR 4 1983

77 Hickory Lane  
Levittown, New York 11756  
March 8, 1983

Congressman Norman Lent  
House of Representatives  
Washington, D.C. 20515

Dear Congressman Lent:

I feel that the Shoreham Plant should stay closed because just in case we have an emergency how are we all supposed to get off the island in time? There are about three million people on Long Island and if there really was an emergency we all wouldn't find ways to get off. A lot of us will die.

Another reason is that the radiation can cause all kinds of diseases if the plant leaks. I think the plant should stay closed.

Your truly  
Carol LaRosa
