TENNESSEE VALLEY AUTHORIT CHATTANOOGA, TENNESSEE 37401 400 Chestnut Street Tower II April 29, 1983 U.S. Nuclear Regulatory Commission

Region II Attn: Mr. James P. O'Reilly, Regional Administrator 101 Marietta Street, NW, Suite 2900 Atlanta, Georgia 30303

Dear Mr. O'Reilly:

In accordance with the Sequoyah Nuclear Plant Appendix A Technical Specifications, sections 6.9.1.6 and 6.9.1.7, enclosed is one copy of the following report prepared by the Tennessee Valley Authority pertaining to environmental monitoring at the Sequoyah Nuclear Plant.

> Environmental Radioactivity Levels. Sequoyah Nuclear Plant Annual Report, 1982

In my letter to you dated April 30, 1982 transmitting the 1981 report, we noted that during the transfer of the data from the analytical laboratory to the data base, a small undetermined number of negative values were changed to positive numbers. The data base and transfer program have been corrected and a check made of the corrected report data against the issued report. It was determined that the number of incorrect values was inconsequential with negligible impact on the data reported or the conclusions drawn in the report.

If you have any questions, please get in touch with K. P. Parr at FTS 858-2685.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager Nuclear Licensing
