DOCKET NUMBER 50-322 04-4
PROCEEDINGS

December 4, 1984

Mr. Nunzio Palladino, Chairman
Atomic Safety and Licensing Board
United States Nuclear Regulatory Commission
Washington, D.C. 20555

SERVED DEC 11 1984

Dear Mr. Chairman:

As the County Legislator representing the district in which the Shoreham Nuclear Power Plant is located, I urge the Nuclear Regulatory Commission to open its deliberations on the Long Island Lighting Company's application for a low power license to the public in order to provide full public scrutiny to the Nuclear Regulatory Commission's deliberations.

This is a time when it is appropriate to recall that the NRC's powers were delegated to them by the people through their elected representatives. Accordingly, the people have a right to see how their responsibilities which they have delegated are used.

Please take this request in the spirit of the public welfare with which it is expressed.

Very truly yours,

Gregory J. Blass
Legislator
