SUBJECT: DPR-59, DOCKET 50-333, 1995 EXPOSURE SUMMARY

Gentlemen:

Attached is a report of the 1995 Personnel Radiation Exposure Summary by work and job function, submitted in accordance with the James A. FitzPatrick Nuclear Power Plant operating license DPR-59 Appendix A, Section 6.9(A)2a.

The total collective (TEDE) dose for calendar year 1995 is 327.679 man-rem as measured by primary dosimetry (TLD). The dose described in this report, as measured by secondary dosimetry (DRD), totals 293.69 man-rem and accounts for 89.63% of the total collective dose.

Very truly yours,

HARRY P. SALMON, JR.
