Mr. Wayne H. Jens  
Vice President  
Nuclear Operations  
The Detroit Edison Company  
6400 North Dixie Highway  
Newport, MI 48166

Dear Mr. Jens:

This is to acknowledge receipt of your letter dated March 21, 1985, which transmitted changes, identified as Amendment 6, to the "Fermi 2 Physical Security Plan," under the provisions of 10 CFR 50.54(p).

We have reviewed the submitted changes and have determined that they are not consistent with the provisions of 10 CFR 50.54(p) and must be revised before they can be determined to be acceptable.

For the item identified as being unacceptable under the provisions of 10 CFR 50.54(p), the previously approved plan revisions must be followed. Should you want to pursue changing the plan under the provisions of 10 CFR 50.54(p), you must resubmit the changes modified to address our comments. In those instances where you desire to pursue the changes without modification, they must be resubmitted under the provisions of 10 CFR 50.90.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P. L. 95-511.

The enclosures to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and are being withheld from public disclosure.
