

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
OFFICE OF INVESTIGATIONS FIELD OFFICE, REGION I  
475 ALLENDALE ROAD  
KING OF PRUSSIA, PENNSYLVANIA 19406

February 12, 1990

MEMORANDUM FOR: William T. Russell, Regional Administrator  
Region I

FROM: Chester W. White, Director *C. W. White*  
Office of Investigations Field Office, Region I

SUBJECT: ADMINISTRATIVE CLOSURE OF CASE NO. Q1-89-007 - OYSTER CREEK:  
LICENSEE MANAGEMENT'S FAILURE TO CORRECT SAFETY RELATED  
PROBLEMS/VIOLATIONS OF NRC REGULATIONS

Office of Investigations (OI) procedures call for periodic review of cases within its inventory to identify those warranting administrative closure. This case has been reviewed and is being administratively closed by OI due to lack of resources. We are forwarding our report on this case to you for your further review and whatever action you deem appropriate through the normal inspection program. Should you decide to pursue this matter, both SECY 85-369 and Commission policy require that any information developed by your staff indicative of deliberate violations of NRC requirements, or other matters potentially warranting referral to the Department of Justice or other law enforcement or prosecutive agencies, be brought to the attention of OI.

Neither this memorandum nor the report may be released outside the NRC without the permission of the Director, OI. Internal NRC access and dissemination should be on a right- and need-to-know basis. Treat as "Official Use Only."

Enclosure:  
As stated
